

# Certificate

Confirmation from

SVA System Vertrieb Alexander GmbH  
Breslauer Platz 4  
50668 Köln

about successful execution of a **external Network Penetration Testing Extended** for

JAM Software GmbH  
Am Wissenschaftspark 26  
54296 Trier

## Scope:

The external IP address range of JAM Software GmbH named in the contract was investigated via the public Internet. (The testing method can be taken from the Penetration Testing report 25.06.2021)

## Summary:

**None** vulnerabilities with a **critical risk value**, **none** with a **high risk value**, **none** with a **medium risk value** and **8** with a **low risk value** were found. The security at points of critical and high risk findings must be optimized immediately.

## Certificate number:

cad0f2fd8618a34534741787a605c1c77abd0dccfd2551bee31bb566372ad88

We recommend to go through the next Network Penetration Testing Extended in 06/2022 or after any relevant changes.

Wiesbaden, 25.06.2021
